REFERENCES

Couch Perry & Wilkes was established in 1978 in the UK and is one of the country's largest consultancies regarding mechanical and electrical building services. By using innovative and modern engineering techniques, CPW strives to deliver state-of-the-art sustainable solutions that are not only energy efficient, but also financially and environmentally sustainable for clients.

Due to the growing demand for our services, in 2019 we decided to establish another branch of the company, this time located in Poland. Therefore, we decided to cooperate with JWW Accounting Office, which took care of the very registration of our business. We were walked through the whole procedure without any problems, and continuous cooperation only strengthens our conviction that the functioning of Couch Perry & Wilkes Europe is supervised by a team of professionals. In the light of the ever-changing legislation, we are confident that all our business dealings are compliant to the said legislation.

Considering the factors mentioned above, we recommend JWW Accountancy in all good conscience and can assure you that their diligence and professionalism will not disappoint even the most demanding client.

Konrad Zięba
