

REFERENCE LETTER

S5 Consulting company stands out in the corporate industry with its approach towards SAP Design Thinking - a combination of technical SAP skills with business processes and UX. The expertise in creation and development of SAP Fiori app for all sorts of companies allows us to launch both standard SAP apps and extending the range of existing solutions by adjusting them to specific customer's needs. Thanks to many successful projects, the company is recognized as an SAP Gold Partner.

Considering the dynamic development of Norwegian S5 Consulting AS company in 2019, a decision was made to expand the activity range and open up a division in Poland. After receiving and analyzing offers from several offices, we decided to choose a solid partner we will be able to trust. JWW team almost immediately took necessary steps connected with registering an entity. A thorough and professional customer approach allowed us to start our business activity quickly. Thanks to the vast experience and support, we receive ready-made solutions to the challenges that we come across.

S5 Consulting Poland is connected with JWW from the very start of their business activity. The office takes care of bookkeeping. The statements, which are prepared in English as well, allow the company to present revenue and expense reports.
