

LETTER OF RECOMMENDATION

Our cooperation with the JWW Accounting Office began in 2008 when Dr. Duda's clinic was still operating as a one-person business.

Due to the specific nature of the services provided and the need to maintain the highest standards we placed high expectations upon the accounting office. We are glad to say that JWW has been meeting them for years. An experienced team of professionals monitors the correctness of the documentation, settlements with employees and administration. Another important fact is their openness to emerging problems and a friendly approach to customer affairs greatly enhancing our communication.

I am happy to recommend cooperation with the JWW Accounting Office to all those who appreciate both the friendly atmosphere and the professionalism of the service. The support that Dr. Duda receives from the JWW team guarantees safety and gives us the ability to focus on running our own business and developing ourselves in the industry. We can put all matters related to taxes in the hands of experts.

Łukasz Duda-Barcik
